Faruque

I have created a subbean for use when putting together the DWA for 2,4-D. The timeline is below. Please let me know if you need anything else on this. Thank you.

"Ethanaminium (2,4-D choline salt) - NU in soybean with DAS 68416-4 (2,4-D tolerant); ENLIST (2,4-D + glyphosate tolerant) corn, field corn with DAS 40278-9 (2,4-D tolerant), and label amendment for ENLIST corn" Fri 8/3/12 Thu 9/27/12 NA **403774** (par: 400223)

Draft DWA Fri 8/3/12 Thu 9/13/12 NA

Branch review of DWA Thu 9/13/12 Thu 9/20/12 NA

Deliver DWA to RD/HED Thu 9/27/12 Thu 9/27/12 NA

Sujatha,
Due date for review of the submitted studies need to be revised.
Probably mid September would be the earliest. Since soybean is a new use, we need to consider performing DWA. Is HED or RD going to let us know. Thanks.

Meghan and Faruque

Per our conversation this morning, I put together this timeline for the actions on 2,4-D. Please let me know of any issues or concerns.

Faruque

I noticed that Mike Walsh assigned 9 Aug as the LSDD for the 3 huge studies that the registrant submitted. Please let me know what your plan is for these studies. Also, please let me know if a DWA is needed for this action. Thank you.

"Ethanaminium (2,4-D choline salt) - NU in soybean with DAS 68416-4 (2,4-D tolerant); ENLIST (2,4-D + glyphosate tolerant) corn, field corn with DAS 40278-9 (2,4-D tolerant), and label amendment for ENLIST corn" Tue 4/10/12 Thu 10/18/12 NA 400223; 400234; 400230; 400237

"Review label, note changes in application timings due to GM traits, calculate EECs, and compare to EECs from non GM crops to determine if RA need to be redone" Tue 4/10/12 Fri 4/27/12 Fri 5/18/12

"Review MRIDs 48862901, 48862902, 48844001"

Tue 7/3/12 Wed

8/1/12 NA 403363

Draft RA

Wed 7/18/12 Thu 10/4/12 NA

Branch review of RA

Thu 10/4/12 Thu 10/11/12 NA

Deliver RA to RD

Thu 10/18/12 Thu 10/18/12 NA
